

# South Titan Track & Field

## **Our Vision:**

As a program, we aim to provide a meaningful experience that challenges & equips each individual to become a better version of themselves through track & field. We want to build athletes for the future, not just for the season.

## **Our Mission:**

South Titan Track & Field strives to be a model program in the state of Nebraska. We measure progress by daily, intentional effort and work to develop meaningful relationships between all members of our program.

Our Lady Titan program will lean on what it means to represent the South Titans by implementing “TITAN” values into our vision & mission. TITAN stands for **Team, Improvement, Toughness, Accountable & Next Level.**
